

Electric Roller Blinds

TECHNICAL SPECIFICATION for MAINS & BATTERY MOTORS:

At Saxon Blinds we are able to supply our Heavy Duty Roller Blinds with motors incorporating inbuilt radio receivers from a superior collection of specialist roller blind electric drives developed specifically for the Roller Blind and shading industry. These tubular electric motors that fit within the roller tube are available from a choice of 230V AC mains powered units that just require power input from a fused spur connection or the simple to install 12V DC rechargeable battery powered unit.

Selection from the Somfy Sonesse Motors available.

The quiet operation and unmatched strength of this Sonesse motor is a perfect fit when motorising window coverings or projection screens.

This range of superb RTS motors has set a new standard for exceptionally quiet operation for indoor motorised blinds.
