

TaHoma Switch

Details & specifications

From smart application to home automation, the most complete & evolutive connected experience with the TaHoma environment

- From the touch of a button, to app control, all the way to voice control, TaHoma switch offers an accessible to all and scalable smart home solution.
- Tahoma switch controls key home equipment from Somfy and major partner brands (shades, shutters, doors, gates, windows, heating, lighting, cameras, alarm systems and more) for more security, greater energy efficiency and enhanced comfort every day.
- Thanks to the native integration of the io-homecontrol, RTS and Zigbee 3.0 protocols along with cloud compatibilities Tahoma switch is an evolutive solution, that allows people to add equipment as they'd like.
- TaHoma switch is also compatible with Google Assistant and Amazon Alexa enlarging the user experience to voice control.

Evolutionary Smart Home solution

- Today we offer more than 280 different equipment ranges and connect with 21 major smart home brands as well as voice assistants such as Google assistant and Amazon Alexa, TaHoma switch offers one of the most complete smart home experiences on the market.
- Whether you are a beginner or an advanced user living in a house or apartment, no matter the size of your installation and number of equipment, it will be very easy to use TaHoma switch.
